1. **Cleansing:** The first step is to cleanse the face to remove any makeup, dirt, or oil. A gentle cleanser is used to massage the face and neck, and then wiped off with a warm towel.
2. **Skin analysis:** After cleansing, the esthetician will analyze the skin to determine its type and any specific concerns or issues. This helps them to tailor the treatment to the individual's needs.
3. **Exfoliation:** The next step is exfoliation, which involves using a gentle scrub or enzyme peel to remove dead skin cells and reveal smoother, brighter skin. This step can also help to unclog pores and reduce the appearance of fine lines and wrinkles.
4. **Steam:** A gentle steam is then applied to the face to help open up pores and prepare the skin for extractions.
5. **Extractions:** This step involves the manual removal of blackheads, whiteheads, and other impurities from the skin. A gentle pressure is applied to the skin using a tool or the esthetician's fingers to release the impurities.
6. **Massage:** A facial massage is then performed using a gentle, upward motion to improve circulation, relax facial muscles, and promote lymphatic drainage.
7. **Mask:** A mask is then applied to the face to help hydrate and nourish the skin. Different masks may be used depending on the individual's skin type and concerns.
8. **Moisturize:** The final step is to apply a moisturizer to the face to lock in hydration and protect the skin. This step can also help to improve the appearance of fine lines and wrinkles.

Overall, a classic facial treatment is designed to improve the overall health and appearance of the skin, leaving it feeling refreshed, revitalized, and rejuvenated.

ACNE CLEARING FACIAL

DURATION: 60 MINUTES

PRICE : 1499 THB / SINGLE

PACKAGE : 5 TIMES /5999 THB

10 TIMES /10,900 THB

1. Deep Cleansing: The first step is a deep cleansing of the skin using a mild, non-irritating cleanser to remove dirt, oil, and other impurities from the skin.
2. Exfoliation: An exfoliating treatment is then used to remove dead skin cells and unclog pores. This may involve using a chemical exfoliant like salicylic acid or a physical exfoliant like a scrub.
3. Steam: A warm steam is used to open up pores, making it easier to perform extractions.
4. Extractions: A skincare professional will perform gentle extractions to remove any blackheads or whiteheads that have formed on the skin. This step should only be performed by a trained professional to avoid causing further damage to the skin.
5. Soothing Mask: A soothing mask is applied to the skin, which can help calm any redness or inflammation caused by the extractions.
6. LED Light Therapy: The final step of the treatment is LED light therapy. A blue light therapy can help to kill the bacteria that cause acne, while red light therapy can help to reduce inflammation and promote healing.
7. Moisturizing: A moisturizer and sunscreen are applied to the skin to protect and hydrate it. Sun protection is especially important for those undergoing acne clearing treatments, as certain acne-fighting ingredients can make the skin more sensitive to the sun.

Overall, this facial treatment is designed to help unclog pores, reduce inflammation, and prevent future breakouts, leaving the skin clear and blemish-free. It is important to note that the frequency of the treatment will depend on the individual's skin condition and concerns, and a skincare professional may recommend a personalized skincare routine to complement the facial treatment for optimal results.

HYDRATING FACIAL

DURATION: 60 MINUTES

PRICE : 1299 THB / SINGLE

PACKAGE : 5 TIMES /4999 THB
10 TIMES /8999 THB

Hydrate facial treatment is a skincare procedure designed to deeply moisturize the skin and leave it looking radiant and rejuvenated. The process of hydrate facial treatment typically involves the following steps:

1. **Cleansing:** The first step is to thoroughly cleanse the skin to remove any dirt, oil, or makeup. This helps to ensure that the hydrating ingredients can penetrate the skin more effectively.
2. **Exfoliating:** After cleansing, using an exfoliating scrub or enzyme mask to gently remove any dead skin cells and unclog pores. This helps to improve the skin's texture and enhance the effectiveness of the hydrating ingredients.
3. **Hydrating Mask:** then apply a hydrating mask that contains ingredients like hyaluronic acid, aloe vera, or ceramides to deeply moisturize the skin. The mask is usually left on the skin for 10-15 minutes to allow the ingredients to penetrate and hydrate the skin.
4. **Massage:** After the mask is removed, the technician may perform a facial massage using a nourishing oil or serum. This helps to further hydrate and soften the skin, while also promoting relaxation and reducing stress.
5. **Serum and Moisturizer:** Finally, the technician will apply a hydrating serum and moisturizer to lock in moisture and leave the skin feeling soft and supple.

The hydrate facial treatment can be customized based on the individual's skin type and concerns. For example, someone with dry or dehydrated skin may benefit from a more intensive hydrating mask or a longer massage, while someone with oily or acne-prone skin may benefit from a lighter moisturizer or a mask that contains salicylic acid to help unclog pores.

BRIGHTENING FACIAL

DURATION: 60 MINUTES

PRICE : 1299 THB / SINGLE

PACKAGE : 5 TIMES /4999 THB
10 TIMES /8999 THB

A brightening facial treatment is a popular skincare procedure designed to reduce the appearance of dull, tired-looking skin and leave it looking brighter, more radiant, and refreshed. The process of a brightening facial treatment typically involves the following steps:

- 1. Cleansing: The first step is to thoroughly cleanse the skin to remove any dirt, oil, or makeup. This helps to ensure that the brightening ingredients can penetrate the skin more effectively.*
- 2. Exfoliating: After cleansing, the technician may use an exfoliating scrub or enzyme mask to gently remove any dead skin cells and unclog pores. This helps to improve the skin's texture and enhance the effectiveness of the brightening ingredients.*
- 3. Brightening Mask: The technician will then apply a brightening mask that contains ingredients like vitamin C, kojic acid, or licorice root extract to reduce hyperpigmentation and brighten the skin. The mask is usually left on the skin for 10-15 minutes to allow the ingredients to penetrate and brighten the skin.*
- 4. Massage: After the mask is removed, the technician may perform a facial massage using a brightening serum or oil. This helps to further brighten the skin and promote relaxation and reduce stress.*
- 5. Serum and Moisturizer: Finally, the technician will apply a brightening serum and moisturizer to lock in moisture and leave the skin looking more even-toned and radiant.*

The brightening facial treatment can be customized based on the individual's skin type and concerns. For example, someone with sensitive skin may benefit from a gentler brightening mask or serum, while someone with oily or acne-prone skin may benefit from a mask that also contains salicylic acid to help unclog pores.

06

EXPRESS FACIAL

DURATION: 30 MINUTES

PRICE : 990 THB / SINGLE

PACKAGE : 5 TIMES /4500 THB
10 TIMES /8500 THB

Express facial treatments are quick, rejuvenating treatments that can be performed in a short amount of time, typically 30 minutes or less. They are designed to provide a quick pick-me-up for the skin, leaving it refreshed, glowing, and hydrated.

The treatments typically involve a gentle cleanse to remove dirt and impurities from the skin, followed by exfoliation to remove dead skin cells and improve skin texture. A facial massage may also be included to promote circulation and lymphatic drainage, which can help reduce puffiness and dark circles under the eyes.

Express facial treatments may also include the application of a mask to address specific skin concerns such as dryness, oiliness, or sensitivity. The mask is left on for a short amount of time before being removed with warm water or a hot towel.

One of the benefits of express facial treatments is that they can be customized to meet the specific needs of the client. For example, if a client has dry skin, a hydrating mask may be applied to provide extra moisture. If a client has oily skin, a mask that contains ingredients to help control oil production may be used.

07 BACK TREATMENT

DURATION: 60 MINUTES

PRICE : 1299 THB

PACKAGE : 5 TIMES /4999 THB
10 TIMES /8999 THB

A back treatment is a spa treatment designed to cleanse, exfoliate, and hydrate the skin on the back. It is similar to a facial but is specifically tailored to the back area. Back treatments can help to unclog pores, reduce acne, and improve the overall appearance and texture of the skin.

The treatment typically begins with a gentle cleanse to remove dirt, oil, and other impurities from the skin. This is followed by an exfoliating scrub to remove dead skin cells and promote cell turnover. A mask may also be applied to the back to address specific skin concerns, such as dryness or oiliness.

After the mask has been removed, a moisturizer is applied to hydrate and nourish the skin. A back massage may also be included in the treatment to help relax and loosen tight muscles.

Back treatments are particularly beneficial for those who suffer from acne on their back, as the exfoliating scrub can help to unclog pores and reduce breakouts. They are also a great option for those who spend a lot of time in the sun or who have dry, flaky skin on their back.

Overall, back treatments are a great way to pamper and rejuvenate the skin on the back. They can help to improve skin health and appearance, while also providing a relaxing and enjoyable spa experience.
